Application

2. This notice applies to marine facilities and waters administered, managed, and regulated by the BCPMC, as shown in Figure 1 (p. 4).
3. For the purposes of harbor dues and berthage fees, the following guidelines apply to the vessel measurement:
 - a) Where two registered gross tonnages are recorded on a tonnage measurement certificate, only the greater of these tonnages shall apply for the purposes of this notice.
 - b) Where the owner of a vessel is not able to produce a tonnage measurement certificate, the BCPMC may verify the gross tonnage of the vessel through a classification society such as Lloyds and use such gross tonnage as is indicated in the register for the purpose of calculating applicable charges.
 - c) Where the owner of a vessel produces a tonnage measurement certificate, but the gross tonnage shown therein has not been calculated as described in the definition “registered gross tonnage”, the owner of the vessel shall deposit with the BCPMC, in addition to the amount of harbor dues payable on the basis of the gross tonnage so shown, an amount equal to 20 percent of the amount payable.

4. Dues

- a) The fees are due from the owner immediately and must be paid to the BCPMC at its office.
- b) The duties are payable within thirty (30) days of the date on which they became due, failing which a penalty equivalent to 1.5% of these duties is then required for each additional period of thirty (30) days or part.
- c) The owner has a maximum period of six (6) months from the date of invoicing to make any request for correction or cancellation of these rights.

5. Mooring and additional services

- d) Mooring and garbage removal services, as well as any other service rendered to the vessel during its stay at dock must be made through the CGPBC.
- e) CGPBC will provide these services through its subcontractors at a cost price + 20%.

6. Changes

Nothing in the Tariff Policy shall prevent the BCPMC from entering into any commercial agreement outside of these provisions and from making periodic changes to this policy. The BCPMC will notify its clients in the event of changes to this policy.

 - c) In the case of a ship which, without being moored at a berth, loads goods taken at a berth or unloads them at a berth by means of lighters and that berth is reserved for that ship, the ship is considered to occupy the berth and the mooring fees are payable from the time when the first mooring of the lighter is put on the wharf until the time when the master (or its agent) notifies the BCPMC that the loading/unloading operations have been completed.
